The events recorded here tell of an Australia far different from the Australia many live in today. This will be especially obvious to those who have spent their lives in the cities. A book like this immerses one in a time warp. The author found that the old spirit of Australia still lives on in country towns far removed from the city lights: the slower pace of life, the easy friendliness of the locals, the peculiar brand of Australian humour, the town identities, the feeling of belonging that exists in small communities is still there.
